Date: Monday, May 20, 2013 8:38:31 AM

Good morning, Tom,

I hope that all is well with you.

Nice list of candidates for the panel! I thought I'd share some unsolicited "votes" for some of those on the list. Certainly past SAB members, Allen Burton, Judy Meyers, and Duncan Patten, would be ideal to include, having had experience with the process, expertise with the particular topic, and consistent follow-through & engagement throughout the entire report-writing process. I think that Mazeika Sullivan is a great choice to being mentoring/engaging an early-to-mid career scientist in the SAB. I know Mazeika well, and he would be an active participant and contribute important perspectives. I work with Margaret Palmer on the SESYNC Scientific Review Board and know that she would be a strong contributor. Likewise, I've served on an NSF panel with Bill Fagan and he was very engaged with many great comments.

Do you have any better sense of the timing of the first meeting? I will be at conferences and meetings from August 10-31 and also am traveling for a seminar the last week of September.

Best,

Amanda

Subject: EPA Science Advisory Board Panel on Connectivity of Streams and Wetlands to Downstream Waters

Thank you for your interest in being considered as a candidate for the EPA Science Advisory Board panel that will review EPA's draft science synthesis report on the connectivity of streams and wetlands to downstream waters. This is to inform you that your biosketch has been posted on the EPA Science Advisory Board website in the list of candidates for the panel.

The biosketches of the panel candidates have been posted for public comment at the following URL:

<http://yosemite.epa.gov/sab/sabproduct.nsf/0/7724357376745f48852579e60043e88c!OpenDocument&TableRow=2.1#2>

.

Sincerely,

Tom Armitage
